

# STORMSHIELD DRY BARREL

## Blue Barrels

*We loved our yellow barrels but too much cost was being spent on inbound shipping to justify their existence. We are offering a Blue Barrel program that 'REUSES' barrels which is the best environmental step we can take.*

- Barrel sizes available are 30L (52x30cm) and 60L (58x40cm)
- barrels were originally used to ship dry food that were first packed in sealed plastic sleeves and then into the barrels
- all barrels we use have been inspected with any soiled or damaged barrels being rejected.
- All barrels have been thoroughly washed.
- Some barrels may have marking pen stains and or scuff marks from shipping.
- Barrels come complete with adjustable hoist handles and lockable collars
- 30L 4lb 7oz/ 2kg
- 60L 5lb 14oz/ 2.7kg

### Stormshield Barrel Harness - Universal

*A web grid secures the barrel to the harness with adjustments to fit all barrel sizes. Comfort is assured by use of thick lumbar and torso backpads.*

- A well padded backpad and lumbar pad combine to provide carrying comfort with a central vertical venting channel.
- Reinforcements at all stress locations.
- Lightweight reduces portage carrying load.
- One size fits all 3 barrel sizes
- Works with all barrels and dry bags

### Fitsal Harness

- works best with 50-60 liter barrels
