

# HIKING PACKS - INTERNAL FRAMES

## Apollo

*A design targeting extended backpacking trips, the Apollo highlights our new light weight Alpha Star harness*

- Large volume pack with dual spindrift collar top entry and lower clamshell entry
- Main compartment can be separated into 2 compartments via an internal zippered shelf divider.
- Organization of often used items is easy as the Apollo has a hood pocket, 2 side expansion sleeve pockets, a lower front clamshell pocket and a quick storage front neoprene pouch pocket.
- A raincover is included and fits conveniently in the hood pocket.
- With **Alpha Star Harness** (see features on page 10)
- Capacity: LT - 65L, MT - 70L
- Torso Fit LT - 18"-20"/33-50cm MT - 15"-21"/38-53cm

## Archimedes

*An expedition style backpack with the added feature of a fully detachable torso pack for use when the full pack is not required.*

- 4 entry points to this pack, toptail, lower clamshell, and either side vertical zippers, make access to gear quick and easy.
- The pack has an internal shelf divider allowing the pack to be used as one large storage or two smaller compartments.
- The front accessory pocket is a full detachable torso pack.
- Our 'Talon' pack compression system secures the pack eliminating any load shifting while on the trail
- A raincover is included and conveniently fits into the hood pocket.
- Non chafing mesh has been applied eliminating potential abrasion possible during long hikes.
- With **Alpha Star Harness**
- **Archimedes LT** - capacity: 62+8L; weight: 2818g/6.2 lb; stay length: 22"/56cm; torso fit: 13"-20"/33-50cm
- **Archimedes MT** - capacity: 68+8L; weight: 2886g/6.35 lb; stay length: 24"/61cm; torso fit: 15"-21"/38-53cm
- **Archimedes MT** - capacity: 80L; weight: 2990g/6.58 lb; stay length: 27"/69cm; torso fit: 16"-23"/40-58cm

### Alpha Star Harness Features

- The recurved shoulder straps use double layered cushioning in areas where you need added comfort.
- Non chafing mesh has been applied eliminating potential abrasion during long hikes.
- Our conical hipbelt provides the necessary support and comfort but without the bulk often found in hipbelts.
- Available in both a men's and women's harness (MT and LT)
