

HIKING PACKS - INTERNAL FRAMES

Qomatiq 90L

Named after the hard working sled of the Arctic the Qomatiq is designed to carry heavy loads for extended trips.

- Three way pack entry, top, front, lower, provides great organization capability
- Hood has a good sized storage pocket
- Front pocket entry uses a YKK waterproof
- Zipper – internal mesh barrier separates pocket gear from internal gear
- Lower clamshell entry uses a beefy size 10 YKK
- Internal zippered shelf separates the upper and lower compartments and can be opened to create one huge compartment

- Two full length side pockets are accessed using waterproof zippers
- Lower side bottle/accessory pockets
- Featuring our Alpha Star harness that is well padded and provides a wide adjustment range
- Hypalon, an extremely durable fabric, has been positioned where abrasion might occur
- All stress points are reinforced
- Full sized raincover included
- Size: 70 and 90 liters
- Colour: Rust with Beige accents
