

HAMMOCK TENT

Chrysalis

Category 3 season ultralight

Hanging out. Sleep between the trees in a protected hammock, without the need to tote a separate tarp. You won't believe how roomy it is inside!

- Patented 2 pole covered hammock design provides the comfort of hammock and the functionality of a tent.
- Sleeping on your side is not only possible, but comfortable, too! Camper can lie in a true horizontal position for restful sleep.
- Wide web straps secure easily to two trees or other stable structures, for a fast and easy set up, without damaging the trees
- Protective overfly offers full weather protection.
- Side entry wall flaps allow easy entry/exit from both sides of the tent
- Built in mesh windows in the wall flaps offer insect protection, or can be opened completely when needed
- Interior gear storage options abound in head and foot areas as well as overhead via the ridge strap

Upper Layer Hammock Breathability Frame
