4 season

4 pole geodesic design provides space and strength for severe weather conditions. Continuous power mesh rod sleeves simplify tent set up, a real bonus in inclement weather.

- Hoop supported main vestibule allows for dry tent entry and added covered storage.
- Dual high peak scoop vents with internal access.
- The tent body has 4 vent panels, all with zipper fabric panels, creating incredible ventilation possibilities.
- 14 gear storage pockets.
- Pre-rigged external guy lines with reflective web and anchor.

Fly	75D Armetech Ripstop polyester 1800mm
Floor	70Dnylon 3000mm
Breathability	68D breathable & noseum mesh
Frame	Aluminum DAC 8.5
