

SCREENHOUSES

Northern Breeze 10/12

Category

Screenhouse

Our best selling Northern Breeze screen house now has a new version available only in Canada. We received numerous requests for a smaller version for those of you camping just as a couple or to fit on your deck. Now you have it available in a 10x10' size, with all the same features.

- Set up uses 4 wide diameter shock corded aluminum poles that connect at a top mounted hub. Set up is simple and stability the best available.
- Entry to the Northern Breeze is multi-faceted, adapting to whatever your needs may be.
- Full external rain/wind flaps create a virtually water-proof seal not found in other screen houses.
- All 4 flaps can be used as sun awnings, one awning pole set include
- Optional footprints available
