

TARPS & SHELTERS

VCS Backpacking System

If you like to backpack and canoe in all conditions but need a rest break from the elements and insects then check out the Backpacker VCS system. Easy to pack, easy to set up, the VCS provides rain and shade protection and a bug free environment with room to move.

Backpacker VCS Tarp **4lb 8oz**

- Constructed with UV resistant Armattech polyester for years of dependable use.
- 12 feet, 6 in. side measurement with a 16 foot diagonal measure.
- Side release buckle locations for quick attachment of optional bug room.

Backpacker VCS Mesh Room **3lb**

- All 4 walls and roof are constructed with 40D noseum mesh.
- Set up dimensions provide a 6 foot peak height and 8'6"x8'6" floor coverage.
- Attaches easily to the VCS Tarp by connecting the side release buckles.

Backpacker VCS Frame **2lb**

- 4 pole set enables proper set up when trees are not available.
- Using a seamless 6000 aluminum frame combining light weight with superior strength.
- Main poles use a nesting system for compact storage.
